

TAUFIQUL HAQUE KHAN

AI ENGINEER · BACKEND DEVELOPER

Dhaka 1750, Bangladesh

🏠 <https://taufiq.cc/> | ✉ contact@taufiq.cc | 🐙 github.com/2ufiq | 🔗 [linkedin.com/in/taufiq-khan-tusar](https://www.linkedin.com/in/taufiq-khan-tusar)

EXPERTISE

AI Systems: Fine-tuning, PEFT, RAG, agent development, multi-agent orchestration, prompt engineering, cost optimization, GPU utilization, local and cloud deployment, data safety and compliance.

Software Engineering: System architecture design, backend development, database design and integration, unit testing, production maintenance, cloud deployment.

Engineering Leadership: Technical roadmap and delivery planning, scoping and prioritization, code review, technical hiring, onboarding and mentoring engineers, stakeholder communication, product ownership, cross-timezone collaboration.

SKILLS

Languages Python, SQL, Bash, C

GenAI Transformers, PyTorch, llama-server, Chroma, pgvector, CrewAI

LLM APIs OpenAI, Anthropic, OpenRouter, Perplexity, JinaAI, Ollama

ML & Data scikit-learn, NLTK, OpenCV, pandas, NumPy, SciPy, Matplotlib

Backend Django, FastAPI, Flask, Celery, Redis, Pytest, Caddy, PostgreSQL, SQLite, Supabase, Neon

Deployment AWS, DigitalOcean, Render, Cloudflare

Others Git & GitHub, Linux, LaTeX, HTML, HTMX, Ajax, ClickUp

EXPERIENCES

AI and Application Engineer

May 2023 - present

KafKai Giken Inc.

Tokyo 110-0016, Japan (Remote)

- Built and maintained the Django-PostgreSQL service and AI agents of [KAFKAI V3](#).
- Reduced 50% LLM API costs by offloading/routing to task-specific capable models and providers.
- Fine-tuned and maintained in-house models for long-running tasks, API cost-reduction, and data safety.
- Maintained the legacy Pyramid-based codebase of Kafkai V2 and converted it to Django-PostgreSQL architecture.
- Managed the deployment, monitoring, issue handling, and technical support of multiple SaaS products.
- Conducted product cost and revenue analysis, pricing strategies, and competitor studies for [Kafkai.com](#) and [KaiMail.net](#).
- Managed the affiliate and partner programs of [Puchiden.app](#).
- Collaborated with UI/UX designers to improve user experience of [Kafkai.com](#), [Kafkai.ai](#), and [Puchiden.app](#).
- Conducted technical interviews and the hiring process for the Engineering team.

Research Engineer

Feb 2023 - Mar 2023

AIMS Lab, United International University

Dhaka 1212, Bangladesh

- Developed the Flask backend for a multi-modal AI receptionist robot.
- Collaborated with the research team to transform research works into integrable applications.

Machine Learning Engineer (Intern)

July 2022 - Sep 2022

Shadhin Lab LLC

Dhaka 1219, Bangladesh

- Developed NLP-based large volume data collection, labeling, and classification pipelines for an in-house product.

PROJECTS

- **ChatCopilot.app:** AgenticAI based sales agent for online businesses. [🔗](#)
 - Implemented agentic-AI, voice and image understanding, RAG, vectorDB, webhooks, APIs, guardrails.
 - Used Django, PostgreSQL, pgvector, OpenRouter, Redis, Celery, Ajax, DigitalOcean Droplet.
- **MochaChat:** AI chat with different characters inspired by FreeFire. [🔗](#)
 - Implemented roleplay, streaming, ZDR. Experimented SFW/NSFW. Used FastAPI, deque, OpenRouter, Render.
- **Python Buddy:** A Small Language Model-based Python Coding Assistant for mobile devices. [🔗](#)
 - On-device inference ~10tok/s with Snapdragon680 4GB, Model Qwen-2.5-Coder-1.5-Instruct.
 - Applied PEFT, quantization. Used PyTorch, Transformers, llama.cpp.
- **Bengali AI Receptionist:** AI receptionist backend for a university admission office. [🔗](#)
 - Implemented face, speaker & speech recognition, RAG, text-to-speech. Used Transformers, Flask, SQLite, gTTS, OpenCV.

VOLUNTEERING

Community Lead

AI/ML Professional Community Bangladesh

March 2025 - Present

Bangladesh

- Organize technical webinars and workshops on AI/ML applications.
- Mentor early-career practitioners in development and career pathways.

Community Organizer

Python Bangladesh

Jan 2025 - Present

Bangladesh

- Organize tech meetups and collaborative events for Python developers across Bangladesh.
- Lead initiatives to restart PyCon Bangladesh.

Undergrad Research Assistant

City University

Dec 2020 - March 2023

Dhaka 1212, Bangladesh

- Co-authored four peer-reviewed publications.
- Deployed two machine learning models into serviceable Flask applications.
- Contributed to machine learning research in healthcare (leukemia, Parkinson's, CKD) and NLP applications.

Data Science Bootcamp Mentor

AI Planet (Formerly DPHI)

Sep 2021 - Oct 2021

Hyderabad, India (Remote)

- Supported the core team in running the data science bootcamp.
- Guided participants on Exploratory Data Analysis, created and evaluated final assessments.

EDUCATION

BSc in Computer Science & Engineering

City University

Apr 2018 - Nov 2022

Dhaka 1216, Bangladesh

- **Thesis:** "Automated Detection of Acute Lymphoblastic Leukemia Subtypes from Microscopic Blood Smear Images Using Deep Neural Networks," doi: [10.48550/arXiv.2208.08992](https://doi.org/10.48550/arXiv.2208.08992)

PUBLICATIONS

CONFERENCES

- **Speaker**, PyCon ID 2025, Jakarta, Indonesia (14-15 December 2025)
- **Reviewer**, EuroPython 2025, Prague, Czechia (14-20 July 2025)
- **Reviewer**, 3rd International Conference on Computing and Information Technology (ICCI), 2023, Tabuk, Saudi Arabia
- **Presenter**, 5th International Conference on Computing and Informatics (ICCI), 2022, Cairo, Egypt
- **Presenter**, International Conference on Electronics, Communications and Information Technology, 2021, Khulna, Bangladesh
